President's Bulletin – July 28, 2011

SHAFTER

What an apt name bulletin for what the Boss is doing to us!!

I think Canada Post missed the part in Bill C-6 that says the Collective Agreement was extended past January 31, 2011 !! Look at this:

- Took back our annual leave entitlement for June
- Didn't credit our sick leave for June
- Didn't pay Boot and Glove allowance to Part-Timers so entitled, for June
- Cancelled annual leave for June that we bid by using our seniority
- Cancelled paid sick leave we used during June; sick leave we had earned

Then they didn't want to deliver all of the mail
Now they don't want to deliver all of the mail.

MLOCR's: CPC has informed us that Calgary is to get 8 MLOCR's (commonly referred to as ML's or OCR's). Any suggestions where CPC can put these MLOCR's??

RSMC: the Boss just reneged on their "Global Offer" to the RSMC's!!

Who's the Supervisor upstairs who's sorting clerk's mail and taking out Carriers relay bags? Maybe pay more attention to your own job, Supervisor – you know, like getting leave forms back to the Clerks and Carriers and providing printouts of their leave balances they ask for, amongst other things!!!!

CPC used to say (emphasis on "used to") that Health and Safety was so important. Guess that has changed because when a Supervisor was advised of an accident and the Shop Steward asked when they were going out to do the Investigation, that Supervisor said they "had no time for that"!

CPC's annual report was suppose to be published by the end of April.

So where is it?

What are they trying to hide from us and the Public?

Anna Beale
