## What on a Bun ??

Annual leave entitlement deducted, sick leave not credited, shift differential not paid and TN's not credited.

What is the Boss' answer? Beef on a bun?

Is that supposed to replace the above entitlements?

Let's see:

Average annual leave entitlement (1.6 days X \$24.15/hr = \$207.69)  
Sick leave entitlement (10 hours X \$24.15 = \$240.15)  
**For those on days this cost each employee \$447.84**

**\$447.84 monetary loss vs what ?  
75 cents worth of sandwich!!!!!!!!!!!!!!!!!!!!!!**

And it gets even worse. Add in: Shift diff average (Shift 1 & 3)  
\$1.28/hr x 8 hrs x 12 days = \$122.40

TN's ? Invaluable !! **That jacks up the price to \$570.24**

**WHAT A SLAP IN THE FACE**

Other Unions, our own members and the general public donated lots and lots and lots of food to the Picket Line because they **UNDERSTOOD** what was going on and because **THEY CARED**.

So the Boss can keep their "free" food and give us back ALL OF our entitlements...NOW.
